

Khoja Akhmet Yassawi International Kazakh-Turkish University

INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE

Key Aspects of Drug Resistance Mechanisms in Epilepsy Pathogenesis: The Role of Genetic Research

19-20
OCTOBER 2026

TURKESTAN
KAZAKHSTAN

MAIN TOPICS

- Drug-resistant epilepsy: clinical aspects, pathogenesis and modern diagnostics
- Genetics of epilepsy and personalised medicine
- Molecular and genetic mechanisms of drug resistance
- Biomarkers and translational research
- Innovative treatment strategies
- Clinical and laboratory masterclasses

ORGANISED BY

Khoja Akhmet Yassawi International
Kazakh-Turkish University

SCIENTIFIC PROJECT

AP23489425

“Investigation of the Genetic Profile of Patients
with Drug-Resistant Epilepsy in the
Turkestan Region”

TARGET AUDIENCE

Neurologists, internal medicine physicians,
paediatricians, geneticists and
general practitioners.

PARTICIPATING COUNTRIES

Kazakhstan

Türkiye

Uzbekistan

Azerbaijan

Rep. of Korea

United Kingdom

India

Pakistan
